NO ONE DOES MORE FOR VETERANS.

Department of Nevada Veterans of Foreign Wars

November 22, 2020

National Home for Children,

District Commanders,

As the National Home for Children chairman, I am excited to bring great news to you. There is a home that has come open for sponsorship and needs someone. As everyone knows we are co-sponsors of the Cal-Neva house (but when you visit, the name on the house is just California). This opportunity for sponsorship does not come available very often. Unfortunately, the marine riders were no longer able to sponsor the home. It does afford us the fantastic opportunity to have a **Nevada** home to show our pride and dedication to the National Home for Children. The sponsorship is \$8000 per year, and we have a generous District 5 member that has committed \$8000 for the first year, if we sponsor the home. I have been bombarded with ideas for how to fund the house for years to come. The outpouring of responses has been fantastic and I have not heard from a single person that has said we should not sponsor the home. Most questions have been “How do we make it happen?” I have been working with several people to include, but not limited to, Butch Beltran, Ed Sturges, Jerry Peterson, Bill Pierce, and several others.

There are numerous questions that we are trying to get answered but I am looking for input from everyone. I hope to bring this topic up during our COA meeting that we will be having very shortly. Please get the word out and get your questions back to me – I do not have all the information yet, but I will do my best to get them answered.

Right now **please hold your donations** until we sort out which fund we want them to be sent to. We are working on making the process simpler by having all donations sent to the Department Quartermaster, but there are some stipulations we have to iron out. We want the post or district donating to get credit for their donations. We also want to make sure that the donations go to the right fund.

My email is daniel.sanders.tonopah@gmail.com.

The NEVADA house, one of only 42 homes at the National Home for Children, will show how much we care for service members and their families. Nevada may be a small department, but we are active and extremely proud.

Thank you very much,
Daniel Sanders
